

## SPECIFICATION SHEET

Item Number:	WL120ES10	Case Pack:	24
Size	13.5"Lx 9.5"x 11.5"	Weight:	1.5 lbs
Series:	AED Training	Case Weight:	37 lbs
Customization:	No	Case Dimensions:	20.5" x 15.75" x 21.5"

### Description

## Practi-TRAINER® Essentials

The AED Practi-TRAINER® Essentials is the affordable choice for AED instructors. Its lightweight, compact design makes it easy for instructors to bring one for every person in the class! Our AED trainer offers a universal training experience to prepare students for the use of many different AEDs. And, the AED Practi-TRAINER® Essentials is compatible with any type of CPR manikin intended for AED training. And, the AED Practi-TRAINER® Essentials features 5 pre-programmed scenarios with clear voice prompts. Other features are the built-in English and Spanish options, and a metronome.

#### Key Features and Benefits:

- Provides realistic defibrillator training, but cannot deliver an actual defibrillation shock
- Affordable enough for each student in a class to have their own trainer
- Voice prompts to guide students through simulated rescue situations
- Fully Compliant with current AHA guidelines
- Metronome sets proper pace for effective chest compressions
- Lightweight, compact unit is ideal for transporting to training at any location
- Compatible with most CPR manikins that are intended for AED training
- Flexible power options include an AC adapter for longer use or batteries for greater portability
- Each Unit Comes with:
